

Decision of Institutional Certified Evaluation and Accreditation

Kitami Institute of Technology complies with the Standards for the Establishment of Universities and other relevant laws and regulations, and meets the Standards for Evaluation and Accreditation of Universities set by NIAD-UE.

Good practices identified by the review committee include:

- Striving to enhance the quality of the institute's education using the system for rewarding academic staff based on students' evaluation of teaching, *etc.*,
- Recruiting students from across the country through the WINTER SCIENCE CAMP and many other programs and arrangements,
- Providing high school students who have passed entrance examinations on a recommendation basis with the pre-enrollment education accessible from distant places by way of an online learning management system, and
- Having in place a self-study environment accessible 24 hours, with strategic considerations given to the characteristics of being located in a cold region.

Areas for improvement identified by the review committee include:

- An excessive admission rate above the admission capacity at the Graduate School of Engineering (Doctoral Program).
