

Decision of Institutional Thematic Assessment

The attainment level of the goals of National Institute of Technology, Sendai College, is good in the area of Institutional Thematic Assessment A (research activities) set by NIAD-QE.

Good practices in Institutional Thematic Assessment A identified by the review committee include:

- Continuing to acquire high-level external funds by periodically disseminating public offering information, convening explanatory sessions for applications, and lectures by faculty members who have excellent track records of acquiring external funds through Grants-in-Aid for Scientific Research, with a support system through the Research Promotion Center, and the Office for Planning of the administrative department as contacts, so academic staff actively apply for and obtain Grants-in-Aid for Scientific Research, collaborative research, commissioned research, and donations, etc., to enhance the educational research environment by acquiring competitive research funds.

The attainment level of the goals of National Institute of Technology, Sendai College, is good progress the area of Institutional Thematic Assessment B (educational services offered to students other than full-time students) set by NIAD-QE.

Good practices in the area of Institutional Thematic Assessment B identified by the review committee include:

- With respect to educational services offered to those other than full-time students, continually having activities such as providing opportunities to the general public working in a company to learn expertise, etc., conducting class by visiting neighborhood elementary and junior high schools, convening open classes to provide opportunities to people ranging from students to the general public to learn in a wide range of fields, all with the aim of promoting development of human resources through the upskilling support of local company engineers, community engagement for science and engineering education starting from youth, ICT use and educational support, all of which have been producing good results in light of the stable number of participants and high satisfaction rating of participants.
