The Quality Assurance System in the Philippines

- Commission on Higher Education (CHED)
- Accrediting Agencies
- Federation of Accrediting Agencies of the Philippines (FAAP)
- National Network for Quality Assurance Agencies (NNQAA)
QUALITY ASSURANCE MECHANISMS

PROGRAM-BASED MECHANISMS

CHED authority to operate programs
- Permit Phase
- Recognition Phase

CHED Standard Setting
- Policies Standards & Guidelines provide for minimum standards (mandatory; CHED assisted by Technical Panels and Regional Quality Assessment Teams)

Accreditation – Levels I to IV
- Conducted by accrediting bodies under FAAP and NNQAA (voluntary in nature)
  Center of excellence/Center of development

International Certifications
- APEC Registry; Washington Accord;

INSTITUTIONAL MECHANISMS

CHED Institutional Monitoring and Evaluation for Quality Assurance (IQuAME)

Autonomous/Deregulated status

Institutional Accreditation (PAASCU)

HEI

Typology
ESTABLISHMENT OF HEIs

The CHED issues government authority to HEIs to be able to operate degree programs. Two phases:

- permit phase
- recognition phase.

It is only upon full compliance with the minimum standards prescribed by the CHED that a government authority to operate is issued.
The Accrediting Agencies

- responsible for developing standards for the accreditation of programs that exceed the minimum standards required by the CHED
- examine compliance of higher education institutions with the standards for the purpose of granting accreditation and promoting institutional improvement

Uses of Accreditation

- Levels of accreditation are used by CHED as a major criterion in the identification of COEs/CODs which entitles the HEIs financial support from the Commission for their flagship projects and programs.

- Levels of accreditation is also a major criterion by CHED in the selection of private schools to be granted autonomous or deregulated status with certain benefits to be enjoyed.
The Federation of Accrediting Agencies of the Philippines (FAAP)

- established in 1977

- FAAP is the umbrella organization of the accrediting agencies authorized by the government to certify the accredited status of academic programs in institutions.
Internal Quality Assurance

- refers to the systems, policies, practices that academic institutions have set in place to enable them to implement, monitor, and improve their educational mission and objectives.
Internal Quality Assurance Process

Planning → Implementation → Review → Improvements

Continuous dynamic system occurring at all levels

CHALLENGES

- Resolve the issue on the “fluid nature” of the shared responsibility between the government represented by CHED and the accrediting agencies

- Comparability of standards and evaluation instruments among the accrediting agencies

- Address the issue pertaining to Basic Education so we can be at par with the rest of the world
CHALLENGES

- Encourage more HEIs to undergo the accreditation process

- Focus more directly on learning outcomes and a learning-centered model of accreditation
