

Decision of Institutional Certified Evaluation and Accreditation

The National Institute of Technology, Ishikawa College, complies with the Standards for the Establishment of Colleges of Technology and other relevant laws and regulations, and meets the Standards for Evaluation and Accreditation of Colleges of Technology set by NIAD-UE.

Good practices identified by the review committee include:

- The diploma course first-year “Creative Engineering Project I” and second-year “Creative Engineering Project II” classes designed to foster creativity as a unique initiative in which students of different fields form teams and exchange opinions to gain new perspectives, *etc.*; and
- An extremely high employment rate (the number of students employed divided by the number of students seeking employment after graduation) for both the associate and diploma courses, with students employed in the manufacturing industry, construction industry, ICT industry, at electricity/gas/heat/water supply companies, and other employment befitting of the engineers the college hopes to produce; and an extremely high rate of students advancing to higher education (the number of students advancing to higher education divided by the number of students wishing to advance to higher education) for both the associate and diploma courses, with students advancing to the diploma courses at colleges of technology or engineering faculties or academic units at universities that are related to the students’ associate/diploma courses.
